QUALITY ASSURANCE LEAD

Committed to delivering high quality software products through effective testing strategies

Lead Test Engineer with 17 years of industry experience in Automation, Strategic testing, and root cause analysis. Skilled in defect identification, workflow optimization, and implementing test plans to ensure high-quality results and continuous process improvement. Led a successful CMMI-5 certification project as a DPA, utilizing Fish Bone Analysis and CAPA methodologies for effective defect management and process control. A proactive leader and team player, consistently delivering high-quality results for complex projects, and eager to contribute my skills to a dynamic organization focused on excellence.

TECHNICAL ACUMEN

Test Automation Tools: UFT, Selenium Web Driver/Grid, Eclipse, TestNG

Test Management & Defect Tracking Tools: JIRA, Lotus Prosupport, ALM, Rational Quality Manager, Silk Central, JIRA, Rational Clear Quest

API Tools: Parasoft, SOAP UI, Postman

Version Control: Win CVS, Github

DB Tools: SQL Navigator, AQT, Oracle SQL Developer, Microsoft SQL Server, XQMF, TOAD

ETL tool: Informatica Power Center

CRM Tool: Salesforce Winter 19 Lightning Version

Operating Systems: Windows, iOS, Linux, UNIX

Comparison Tools: Win Compare, Altova Diff Dog

RDBMS: Oracle, SQL Server, DB2, MySQL, and MS Access.

Programming Languages: SQL, XML, HTML, Shell, VB script, Java

Scheduling Tools: Autosys, Control M

Platforms: .NET, Java, Mainframe, Siebel, Salesforce and ICMS

Project Management tool: MS Project, ATTASK

Signature Strengths:

Leadership & Mentorship ♦ Test Management ♦ Manual Testing & Test Strategy Development ♦ Extract, Transform & Load (ETL) ♦ Test Automation ♦ Continuous Integration/Continuous Deployment (CI/CD) ♦ Programming & Scripting SQL & Database Testing ♦ Agile Methodologies ♦ Software Development Life Cycle (SDLC) ♦ API ♦ Salesforce

PROFESSIONAL EXPERIENCE

VOLUNTEER WORK [CAREER BREAK FOR MEDICAL RECOVERY]

QA TRAINING FOR STAY-AT-HOME MOMS

DEC 2024

- Conducted three impactful training sessions on Quality Assurance concepts for stay-at-home moms, equipping them with practical skills in manual testing, automation tools, and QA methodologies to confidently pursue careers in QA.

QA TESTING FOR GREATER CAROLINA KERALA ASSOCIATION WEBSITE

MAY 2024

- Conducted testing for the Greater Carolina Kerala Association website, ensuring functionality, user experience, and performance across devices, while identifying and documenting issues to enhance overall website performance and interface.

NORTH CAROLINA ADMINISTRATIVE OFFICE OF THE COURTS, USA

NOV 2019 – JUN 2023

QA Lead

Selected Career Benchmarks:

- Spearheaded QA initiatives by aligning testing strategies with business objectives, ensuring comprehensive coverage through detailed project documentation and test plans, resulting in a 20% increase in test efficiency.

- Partnered with developers and stakeholders to analyze complex business needs and craft effective testing strategies, driving high-quality judicial application releases.
- Played a pivotal role in Agile Scrum ceremonies, contributing to Sprint Planning, Review Sessions, and Daily Stand-ups while designing detailed test scenarios, cases, and procedures based on user stories.
- Executed diverse testing types—Sanity, Smoke, UI, Functional, and Regression, validating results against requirements and driving early defect detection.
- Enhanced system reliability by rigorously testing ICMS Configuration and validating solutions for the Odyssey application across Test, Stage, and Production environments.
- Created and maintained comprehensive Requirement Traceability Matrices (RTMs), improving accountability and traceability throughout the testing lifecycle.
- Sustained a high-impact test suite encompassing core business workflows such as case filings, document management, and approvals.

DUKE CLINICAL RESEARCH INSTITUTE, USA

JAN 2016 – JUN 2019

QA Lead

Selected Career Benchmarks:

- Conducted in-depth analysis of requirement documents in Blueprint, collaborating with Business Analysts to refine Software Specification Documents and ensure alignment with business needs.
- Led QA efforts for clinical trial and non-trial projects, driving seamless integration of patient management and healthcare workflows while ensuring high-quality deliverables.
- Designed and implemented robust automation frameworks using Selenium WebDriver and Java, reducing manual testing efforts by 60% for Salesforce Health Cloud and Service Cloud
- Automated end-to-end validation of Lightning UI workflows, patient billing modules, and critical clinical processes, ensuring compliance with HIPAA and healthcare industry standards.
- Developed and executed data-driven testing strategies in Selenium, ensuring accuracy in patient demographics, lab results, treatment plans, and overall clinical workflow integrity.
- Engineered complex SQL scripts for back-end validation, maintaining data consistency and automating Rave and Rave X applications through a keyword-driven approach in UFT.
- Conducted comprehensive REST and SOAP API testing with Postman, ensuring secure, reliable data exchange and seamless integration of clinical systems.
- Compiled detailed Operational Qualification Summary Reports and Approval Packages, ensuring a smooth transition to production while driving Agile best practices, risk assessments, and peer reviews.

COMPUTER SCIENCE CORPORATION, USA

OCT 2014 – APR 2015

Senior QA Tester

Selected Career Benchmarks:

- Analyzed Project Design Documents for Health Services, ensuring clarity in project objectives and aligning the organization for growth and quality enhancement.
- Developed and executed Test Plans, Scenarios, and Cases for Prior Approvals and Claims using X12 standards, ensuring data accuracy and system functionality.
- Led defect triage and issue resolution in Silk Central, managing defects and providing regular project status updates to ensure alignment with goals and effective communication.

IBM Seterus, USA

AUG 2013 – MAR 2014

Senior QA Engineer

Selected Career Benchmarks:

- Analyzed mortgage letter requirement documents and managed project documentation and tasks via SharePoint, ensuring alignment with project objectives and timely execution.
- Developed comprehensive Test Plans, Scenarios, Cases, and configured test data based on Functional Specifications and BRD to ensure full test coverage.

- Utilized Autosys GUI for job scheduling, optimizing test execution efficiency and maintaining stable workflows.
- Created SQL scripts for back-end validation, ensuring data integrity and system performance across databases, and tested interactions between PULSE and WILMA using UNIX commands.
- Performed ETL testing with Informatica Power Center, validating data accuracy and integrity across various source files.
- Led UAT testing with stakeholders, ensuring project alignment, and provided training on Wilma letter testing for effective knowledge transfer.

ORACLE FINANCIAL SERVICES, INDIA
Senior Consultant

JUL 2012 – DEC 2012

Selected Career Benchmarks:

- Analyzed client requirements, developed test plans, scenarios, and cases based on Functional Specs and BRD, and executed rigorous testing for business enhancements.
- Logged defects in HPQC, collaborated with teams for issue resolution, and provided stakeholders with test execution reports and status updates to align testing with business objectives.

HCL TECHNOLOGIES LTD, INDIA
Sr. QA Engineer

MAR 2010 – MAY 2012

Selected Career Benchmarks:

- Led QA efforts across multiple projects, mentoring teams, analyzing client requirements, and executing functional, end-to-end testing, including database validations with SQL.
- Managed defect triage, reported issues in HPQC, performed automation regression testing using UNIX and CPT, and collaborated with stakeholders for scoping and issue resolution.

FIDELITY BUSINESS SERVICES, INDIA
Associate Test Engineer

APR 2007 – MAR 2010

Selected Career Benchmarks:

- Developed test scenarios, cases, and scripts based on Functional Specs and BRD, leading functional and regression testing for Oracle OAB GUI and Net Benefits web applications.
- Executed automation and manual testing with QTP (VBScript), Parasoft SOAP UI, and ETL jobs for database validation, managed defects in Lotus Prosupport and HPQC, and collaborated with US teams for issue resolution and team training.

CERTIFICATIONS

AWS Certified Developer Associate- Currently Pursuing
Scrum Master Certified(Certificant ID:001614043)
ISTQB Certified
ANIIT certified from NIIT, India

EDUCATION

Bachelor of Engineering in Computer Science & Engineering
Jayamatha Engineering College affiliated with Anna University, Chennai, India.
